

***YOU NEED
A NEW PART***

***WE RETHINK
THE NEW***

***ORIGINAL REMAN
BY FPT CUSTOMER SERVICE***

WHAT WE DO

We bring back our products to original specification

1 INSPECTION

- Disassembly
- Evaluation for product improvement

2 CLEANING

- Customised cleaning process
- Eco-friendly methodology

3 COMPONENT CERTIFICATION

- Conformity check
- Functional analysis

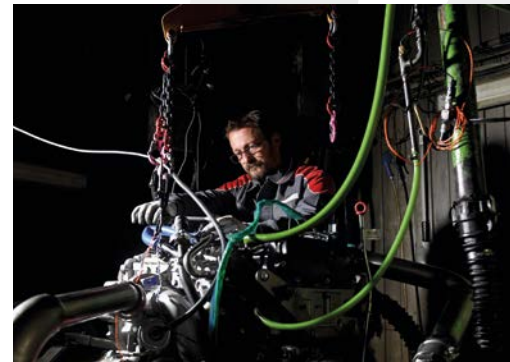

4 REMANUFACTURING

- Product improvement
- Mechanical machinery
- Integration of new components

5 ASSEMBLY

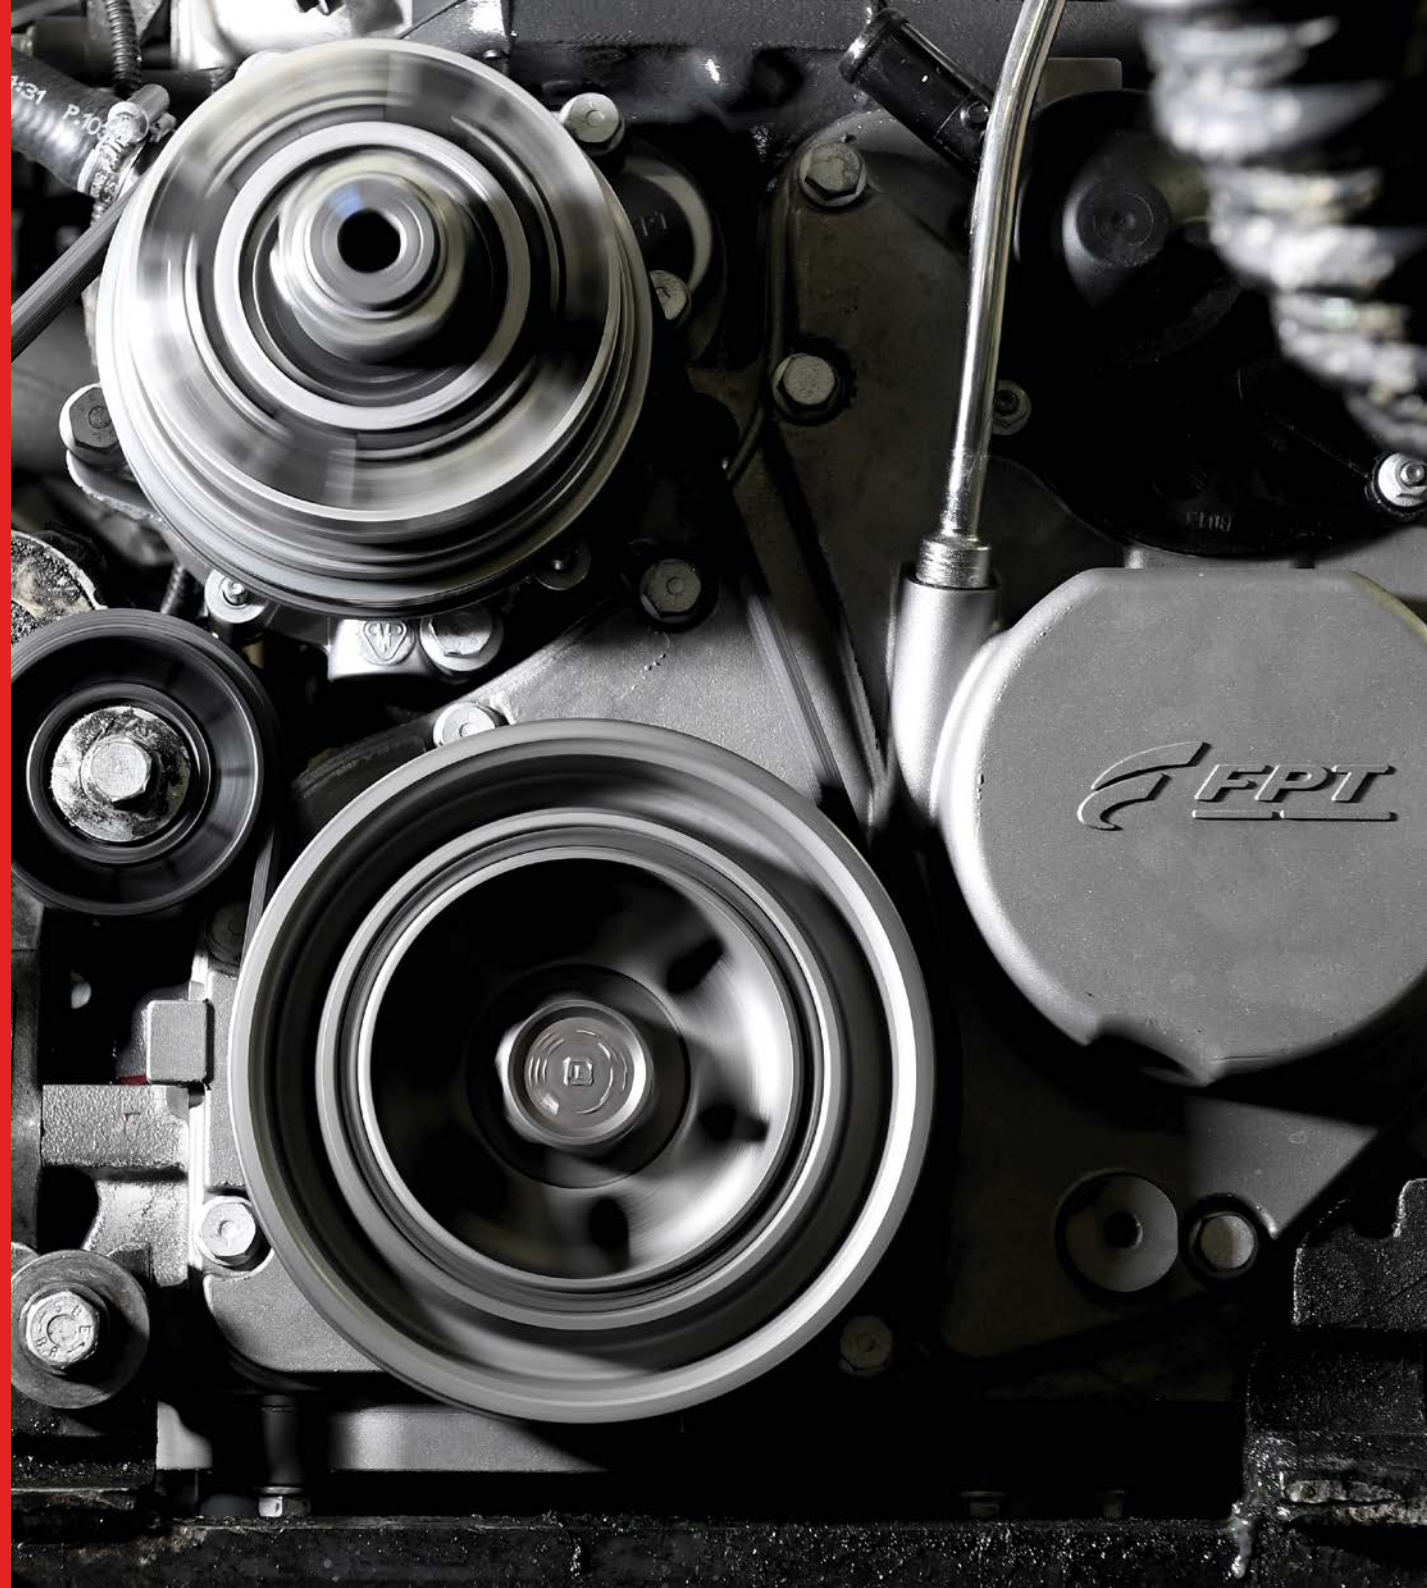

- Expert production of new components
- Process improvement

6 TESTING

- Customised analysis
- Same performance as new

PRODUCT FAMILY	PRODUCT TYPE
BRAKE	Brake caliper
ROTATING ELECTRICAL	Alternator
	Starter
EXHAUST SYSTEMS	Denox pump
	DPF
	Catalytic silencers
ENGINES	Complete engine
	Long block
DRIVELINE	Clutch
	Flywheel
	Gearbox
	Steering
	Tower gear shift
	Air compressor
ENGINE COMPONENTS	Cylinder head
	Heat exchanger
	Intercooler
	Radiator
ELECTRONICS	ECU
INJECTION	High pressure pump
	Injectors
TURBOCHARGER	Turbocharger

WHAT YOU GET

1

A COST-EFFICIENT SOLUTION

Original Reman parts cost up to 30% less than new ones, offering high quality and performance.

3

LOWERED DOWNTIME

When working against a deadline, reducing downtime is a must. As they are ready to be fitted, Original Reman Parts helps reduce equipment downtime for repair.

2

FULL WARRANTY PROTECTION

All Original Reman parts carry best-in-class two-year warranty for total convenience and peace of mind. For engines, the coverage duration is either of two years, or 2.000 hours or 150.000 km, whichever occurs first.

4

EXTENDED PRODUCT LIFE CYCLE

Our Original Reman parts are engineered specifically for FPT engines, cutting down risks, boosting reliability and allowing to extend your products life cycle.

80%

LESS ENERGY

than producing a new part

28M

TONS LESS OF CO₂

emissions per year
