

TWO ROADS, ONE DIRECTION. FPT INDUSTRIAL'S JOURNEY TO NET ZERO CARBON AT IAA TRANSPORTATION 2022

Turin, Italy, September 15, 2022

From September 19 to 25, 2022, FPT Industrial will showcase its **multi-energy approach to sustainable on-road propulsion** at IAA Transportation in Hannover (Germany), the world's leading transportation industry trade show.

As a major producer of propulsion systems, FPT Industrial will take this momentous chance to demonstrate the role it can play in one of the greatest challenges of our times: **the transition from a carbon-based economy to a fully sustainable and carbon-neutral economy.**

A host of exciting world premieres both in the internal combustion engines and ePowertrain sector, complemented by practical and accessible solutions ensuring the continuity of current key transportation business, await visitors at FPT Industrial's exhibition booth in **Hall 21 – stand 34.**

The Brand plans unveiling three products at its booth. The first is a **new multi-fuel engine for the heavy-duty range**, a world-wide premiere, which represents the materialization of the Brand Cursor X engine concept. In addition to that, a **new generation of eAxles for medium and heavy-duty applications** and a **new modular battery pack for buses** will be presented.

All the details on the new products and FPT Industrial's energy transition strategy pathway will be unveiled at the **FPT Industrial Press Conference**, scheduled for Monday, **September 19 at 2 pm, stand 34, Hall 21.**

FPT Industrial is a brand of Iveco Group, dedicated to the design, production and sale of powertrains for on-road and off-road vehicles, as well as marine and power generation applications. The company employs more than 8,000 people, in 11 plants and 11 R&D centers. The FPT Industrial sales network consists of 73 dealerships and about 800 service centers in almost 100 countries. A wide product offering, including six engine ranges from 42 hp up to 1,006 hp, transmissions with torque up to 500 Nm, front and rear axles from 2,45 to 32 ton GAW (Gross Axle Weight). FPT Industrial offers the most complete lineup of natural gas engines on the market for industrial applications, with power that goes from 50 to 460 hp. This extensive offering and a strong focus on R&D activities make FPT Industrial a world leader in industrial powertrains. For more information, go to www.fptindustrial.com.
